

## OBJECTIVE

Web Developer and AI Automation Engineer specializing in backend development, PHP, Python, Django, WordPress, and AI-driven chatbot solutions. Skilled in building scalable systems, optimizing workflows, and integrating LLM-based automation. Quick learner with hands-on experience developing production-level web platforms.

## EDUCATION

Master of Science in Computer Science and Information Technology	2024 - Present
• NED University of Engineering & Technology, Karachi	
Bachelor of Science in Computer Science	Nov 2020
• Govt. Postgraduate Islamia College, Faisalabad	
Intermediate	Sep 2016
• Govt. Islamia College, Faisalabad	

## SKILLS

- **Languages & frameworks** PHP, Python, Django, Django REST Framework (DRF), JavaScript, MySQL, HTML5, CSS3
- **Web & CMS** WordPress, WooCommerce, Tailwind CSS, Bootstrap
- **Ai & automation** Dialogflow, Gemini/OpenAI APIs, Kommunicate, N8N, Flowise, Make.com
- **Tools** Git, GitHub, Postman, cPanel, Hosting Management
- **Core Competencies** REST APIs, JWT Authentication, Role-Based Access Control, API Integration, CRUD Operations, Webhooks, Performance Optimization, MVC Architecture

## PROJECTS

### Hospital Management System (Python + Django + JWT)

- Built backend with role-based access control, authentication, and structured data models

### GFS Builders Website + Chatbot

- Developed a responsive website with integrated AI chatbot for automated customer assistance

### TruckIt Logistics Website + Chatbot

- Created an optimized logistics portal with LLM-based chatbot support for customer queries

### eDaak – Postal Automation System (PHP)

- Built Pakistan Post automation system with parcel and money order forms generator, CSV-to-PDF engine, and admin dashboard

### Saveasy – E-commerce Store (PHP)

- Developed and deployed full PHP-based store with product catalog, user management, and optimized checkout

## EXPERIENCE

### PHP Web Developer — Innovexa

- Developed and maintained high-traffic web applications using PHP, MySQL, and custom admin panels
- Engineered complete e-commerce portals with secure checkout, user management, and order processing
- Built enterprise-level solutions including POS systems and accounting modules
- Led development of UK academic portals ensuring secure authentication and optimized workflows
- Customized and optimized the Wonder Bread Pakistan corporate WordPress website for performance and SEO

### WordPress Developer (Intern) — Codiantech.com

- Worked on corporate WordPress websites using custom themes and plugins
- Integrated content modules and improved website layout, functionality, and responsiveness

## CERTIFICATIONS

### Python Web Mastery — SMIT

- Backend development with Python and Django REST Framework (DRF)
- Focused on building APIs and implementing secure user authentication

### Agentic AI and Chatbot — SMIT

- Built and integrated Dialogflow chatbots into web platforms using Kommunicate, N8N and Flowise
- Enhanced chatbot performance with LLMs like Gemini and OpenAI for smart, natural responses

### Diploma of Computer Application and Office Professional — VTI

- Gained proficiency in Microsoft Office and core computer skills, focusing on data entry and document handling
- Completed hands-on training in office management and practical IT support functions
